

Sohail Khan

Senior Laravel & AI Engineer | Technical Lead | Full-Stack Developer

Mumbai, India ksohail.sk32@gmail.com +91 99678 32161 github.com/Khan-Sohail linkedin.com/in/sohailkhan-ai

SUMMARY

Senior Laravel & AI Engineer and Technical Lead with 5+ years of experience building scalable web applications, APIs, SaaS platforms and AI-powered software. Hands-on with PHP 8+, Laravel 11/12, Redis, Swagger, Vue 3, Nuxt 3, Vuetify and Pinia, deployed on AWS with Docker and CI/CD. Practiced in TDD and clean architecture, with a track record of shipping 250+ REST APIs and 50+ dashboards, including ride-hailing and payment integrations. Leads cross-functional teams, mentors developers and raises code quality standards end to end.

EXPERIENCE

Project Manager

2023 — 2025

Aaibuzz

Led cross-functional teams to deliver complex web applications. Managed project timelines, resource allocation and stakeholder communication to ensure successful product launches.

Senior Software Developer

2021 — 2023

Aaibuzz

Spearheaded backend architecture and frontend integration. Mentored junior developers and optimized code quality standards using Laravel and Vue.js.

Software Developer

2019 — 2021

AndroApps Technologies

Developed and maintained full-stack web solutions. Collaborated with design teams to implement responsive UI/UX and optimized database performance.

Intern

2018 — 2019

MaxGen Technologies

Gained hands-on experience in web development using CodeIgniter, HTML, CSS and SQL. Assisted in building modular components and debugging legacy code.
