PROFESSIONAL EXPERIENCE

Project Manager / Sr. Software Developer

Apr 2021 – Oct 2025

Aibuzz Pvt. Ltd., Navi Mumbai, Maharashtra

- Orchestrated the design, deployment, and optimization of 15+ production-grade applications leveraging Laravel and Vue.
- Led development teams through requirements analysis, technical implementation, code reviews, testing, deployment, and production delivery.
- Engineered 50+ dashboards and 100+ APIs for high-profile clients (Mamaearth, Infakt, iChart, ChooseApp, Doorkee).
- Coordinated third-party service integrations (aggregators, payment providers) to enable multi-vendor comparison solutions.
- Established CI/CD pipelines with GitHub Actions, accelerating release cycles and minimizing deployment failures.
- Enhanced application speed via advanced caching and adaptive access control, contributing to a ~30% boost in dashboard responsiveness.
- Championed TDD principles and cultivated a code quality culture through structured peer reviews and mentoring programs.

PHP Web Developer

Jul 2019 – Jan 2021

ASAG AndroApps Technology Pvt. Ltd., Belapur, Maharashtra

- Produced 45+ admin dashboards and 25+ APIs using CodeIgniter and jQuery, supporting both web/mobile clients.
- Integrated and maintained payment gateway services for e-commerce operations, introducing reusable backend modules to shorten development time.
- Worked closely with product and QA teams to deliver technically demanding dashboards and logic-driven functionalities.

Intern — Web Development

Aug 2018 – Mar 2019

MAXGEN Pvt. Ltd., Navi Mumbai, Maharashtra

- Built and tested MVC-driven PHP modules, establishing reliable MySQL data connections and ensuring seamless deployment for client projects.

SELECTED PROJECTS

Doorkee (UAE Rental Platform) — Project Manager & Sr. Developer

UAE rental marketplace where tenants place offers and owners allot to the highest bidder. Led weekly client scrums and supervised Stripe payment gateway integration. Live and operational.

Pet Walkie (Pet Walking Service Platform) — Project Manager & Sr. Developer

Pet-walking service platform where users can purchase multi-day walking plans, schedule walk requests, and get matched to the nearest service franchisee. Directed product workflow design: payment capture → address collection → nearest-franchisee assignment → date-range slot scheduling → franchisee task pipeline. Supervised franchisee dashboard implementation, coordinated backlog priorities with stakeholders, and ensured smooth operational handover and live deployment.

ChooseApp (Ride-Hailing Aggregator) — Project Manager

Live on Play Store & App Store. Aggregates and compares fares from Uber, Ola, Rapido and local aggregators (Cab Bazaar, Meru, Mega). Managed daily Scrum calls, client demos, and vendor technical integrations (all aggregator APIs integrated under my supervision).

Infakt Learning Platform — Laravel + Vue + Swagger

Education content & assignment system with teacher workflows, assignment grading, and analytics dashboards.

Mamaearth PAN India Dashboard — Laravel + Vuetify

Nationwide staff performance & reporting dashboard with role-based access and automated reports.

iChart (Fast Freight PTE) — Laravel + Vue

Freight invoicing and billing automation with complex financial logic for shipping clients.

Landbridge Ship Management (LBSM) — Laravel + Vue

CMS for seafarer training and competency tracking with onboard/offshore access.
